

March 2023

PRESS RELEASE

Completion of SPACES - Creating Spaces for Creativity project

SPACES – Creating spaces for creativity, a highly innovative 24-month project, co-funded by the Erasmus+ programme of the European Union, which started on the 1st of April 2021 came to its end on the 31st of March 2023.

The consortium of the project consisting of 6 partners (Fundacja Rozwoju Edukacji Spatia, IX Liceum Ogólnokształcące im. Wisławy Szymborskiej w Sosnowcu, Malatya Bilim Ve Sanat Merkezi, Edmund Rice College, CulturePolis and Escola Básica e Secundária Padre Manuel Álvares), from 5 different countries (Poland, Turkey, Ireland, Greece, and Portugal) and covering all areas of expertise necessary to the objectives and activities of the project, had a fruitful and effective collaboration during the 2 years of the implementation of the project.

The aim of SPACES project was to contribute to the creation of a friendly space for the development of creative thinking skills and quick adaptation through the exchange of experiences and good practices in this area between non-governmental organizations, educational institutions and organizations from the cultural and creative sector that deal with formal, informal, and non-formal education.

The Intellectual Outputs (IOs) which were produced and are now available to relevant stakeholders after the completion of the project are the following:

IO1: How to learn creatively?

IO1 is a handbook for secondary school students, consisting of elements of theory and practical exercises and tests (e.g., creativity texts or learning styles).

IO2: How to teach creatively?

IO2 is a handbook for teachers and educators, consisting of training and guidance material on topics mainly concerning creativity and education.

IO3: How to create creative space?

IO3 presents good practices, ideas and recommendations in organising school space (inside and outside) to foster creativity and effective learning.
